Hong Kong (S.A.R.)

This half-term our lead learning topic is all about the geography of Hong Kong (Special Administrative Region of China), its climate, population, location and landscape.

By the end of the topic, pupils will be able to answer the following questions:

1. **Where in the world is Hong Kong located?**
2. **What is the climate like in Hong Kong?**
3. **How has a large, modern airport been built in such a densely populated area?**

Key Vocabulary:

Climate   location   population   physical   human   region   subtropical   equator   territories   harbour   reclaim
